Contents

Chapter 1 Preface	1
Chapter 2 Effects of low temperature and shading during flowering on the yield components in soybeans	6
Materials and Methods	6
Results	8
Discussion	11
Chapter 3 Differences in pod setting pattern during and after low temperature between the cold-weather sensitive and the tolerant varieties	13
Materials and Methods	13
Results	14
Discussion	19
Chapter 4 The mechanism of cold-weather tolerance during the flowering stage	21
Materials and Methods	21
Results	22
Discussion	25
Chapter 5 Analysis of correlation of cold-weather tolerance with agronomic traits for breeding	27
Materials and Methods	28
Results	31
Discussion	37
